I had to do an internship in a primary school in Las Palmas de Gran Canaria. This internship lasted five weeks. I did my internship in the primary school CEIP Alcaravaneras, it is located near the beach Alcaravaneras. During these five weeks I observed the lessons, the children and the school. I always stayed with one English teacher. During the lessons she tried to speak in English but often she changed to Spanish. I tried to help the children when they needed it in the subject English.
