Website	www.bergerac.educagri.fr
Size of organization [nr of employees]: small (≤ 50), medium (51-250), large (> 250)	medium (51-250)
Short Description of the school	<p>The vocational school of Bergerac is a state-run school situated in Monbazillac, in Dordogne, at the center of the Aquitaine region, not far from the famous city of Bordeaux.</p> <p>In our school, pupils can learn different vocational topics (wine and spirits trade, reception-sale and care to people) and technological topics (landscaping architecture, agricultural production). On the school site there are also apprentices with sandwich courses vine growing - wine making and landscaping and a vocational training center for adults. General education subjects are also taught (French-English and Spanish, History and geography...)</p> <p>The school is situated in Périgord a premier destination for tourists from all over Europe; many British people have settled in this region.</p> <p>The school includes a learning resources center, multimedia classrooms and a wine tasting room. Teachers also have specific educational methods like "multidisciplinarity" (with several teachers working together on a particular topic), "sociocultural activities" and actions linked to territorial extension, in co-operation with local associations. The 55 ha vineyards and winery produce dry or sweet white, rosé and wines. They are used as practical learning tools.</p>

	<p>La Brie is a boarding school with pupils between 15 and 19 years of age. It has been involved in international co-operation projects for several years, both Comenius partnerships and Leonardo mobility projects. Thus, it is common practice that our pupils and staff take part in European activities – which will go on with Erasmus+. We are convinced that mobility and language skills are essential for the professional inclusion of our wine marketing students. That is why 4 week work placements in European wine shops have been proposed in the framework of Erasmus + mobility projects. Secondary vocational pupils also attend a “European class” where wine-making is taught in English.</p> <p>La Brie school is also a member of the Wine making Schools European Network. The secondary vocation level pupils also attend a “European class” where wine-making is taught in English. The school hosted several Comenius assistants in previous years for that European dimension purpose.</p>
