

SAVE THE DATE: Summer School 2026

Summer school STEM Education / International Week STEM in Motion

Contents:

At first glance, STEM education seems to be the same all over the world. But upon closer inspection, this isn't the case: every country has different approaches, and it's worthwhile to exchange ideas on this topic internationally. At the "Summer School STEM in Motion," we invite STEM students and teacher trainers to join us for "misconceptions" and to discover many practical international perspectives.

Date & Location:

 28.09.-02.10.2026

 Schwäbisch Gmünd (Germany)

Practical Aspects

1) Costs for participating students

- Costs covered by the summer school: accommodation, breakfast & most meals
- Costs covered by every participant: travel expenses to Schwäbisch Gmünd, personal expenses

2) Accommodation

- A reservation in a two-bed room in a local hotel is made for 27.09.-02.10.2026 (including breakfast).

3) Credits, language & target group

- Language: English
- Credits: 3 to 5 ECTS (depending on the expected academic performance)
- Certificate of attendance: Handed out at the end of the summer school
- Participants: STEM teacher trainer students for primary and secondary education

4) Erasmus, BIP & contributing to the school

- The school will be organized as a Blended Intensive Programm (BIP), so your students could get additional Erasmus funding. The date of the virtual BIP meeting will be communicated in time.
- We invite STEM colleagues from our partner universities to hold their own workshop at the summer school. We appreciate every contribution!

The summer school is being held as part of the project "Act & Reflect smart: STEM Education in Motion" in cooperation with the Gmünd Ulm School of Education (GUSE).

With funding from the:

If you would like to register or you got any questions, please don't hesitate to contact us.

Coordination
