

## INVITATION INTERNATIONAL WEEK GROWING GREEN CITIES

### Dear partners,

We are pleased to invite you to our International Week at Windesheim Flevoland, University of Applied Sciences in Almere, the Netherlands. This event will be organized in the week of February 1 - 4, 2016.

We are building a tradition of bringing multidisciplinary expertise together once a year, in order to inspire our local and international students and share expertise and experiences as colleagues. The International Week will focus on Growing Green Cities; including the themes of Health, Social Cohesion, Green Tech and (Social) Entrepreneurship.

Guest lecturers are invited to attend the International Week and contribute to one of the abovementioned themes that are further described in the challenges enclosed in the Appendix.

Registration is made by sending the registration form attached by email to [international@windesheimflevoland.nl](mailto:international@windesheimflevoland.nl) before November 30th 2015. We will contact you right after the deadline to work out the details and provide you with suggestions for accommodation.

### Funding & sponsorships

Participation may be funded by ERASMUS+ through your institution's International Office provided there is an Erasmus+ staff mobility agreement between your institution and ours.

Alternatively, Windesheim Flevoland is offering a few sponsorships for guest lecturers to partly cover travel expenses & accommodation, provided that they bring along three or more students.

During your stay in the city-center of Almere, the university and other facilities are within walking distance of your accommodation. Should you have any questions at all, please contact Ms. Alena Baresic [international@windesheimflevoland.nl](mailto:international@windesheimflevoland.nl), International Officer for Windesheim Flevoland.

***We hope to welcome you in Almere!***

Kind regards,

International Team | Windesheim Flevoland
